

INTRODUCING...

the ultimate drinking water appliance.

clean. simple. smart.

It's all about clean water. And a healthy life begins with clean, healthy water. It doesn't get any more basic than that.

Just press a button and enjoy an endless supply of cold or hot water.

Always bottle-free and freshly filtered, you're assured that your water never sits stagnant in a plastic container. And what could be simpler than replacing 8,000 – 16 oz. bottles with a single Natural Choice filter.

Good for you and the environment.

So turn on the tap and relax knowing you're doing the right thing for your body and the planet. Who knew going green could be so simple.

1 InstaChill™

Every glass is freshly filtered and instantly chilled in a Sealed Water Pathway, where air never contacts the water supply. Unlike other coolers, ION's proprietary design has no reservoir to clean or sanitize.

2 Cooling Capacity

Dispense 120 x 7 oz. glasses of water per hour at a constant temperature of 5.5°C... No other water cooler consistently delivers water this cold each and every time.

3 RapidHot™

Tea, cocoa, and even instant soups are delicious with piping hot, freshly filtered water. Up to 2 gallons per hour, convenient and ready whenever you are.

4 Save Energy

Why run an appliance when the building is empty? ION's SleepMode™ reduces energy consumption on evenings and weekends.
